REQUEST FOR REVIEW OF PATENT TERM ADJUSTMENT

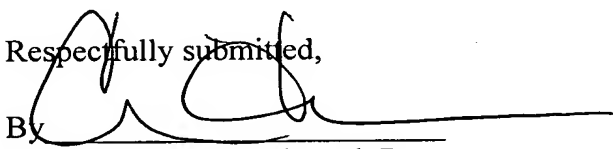

Dear Sir:

Applicants have reviewed the Determination of Patent Term Adjustment under 35 U.S.C. § 154 (b) dated December 6, 2007 and believe that the U.S. Patent and Trademark Office ("PTO") may have miscalculated the patent term adjustment for the above-referenced patent application. Specifically, the patent term adjustment may extend the term of this patent by 32 days too many, as the PTO did not debit Applicants for the Supplemental Amendment and Response filed on September 24, 2007.

Accordingly, Applicants respectfully request that the U.S. Patent and Trademark Office review the calculation of patent term adjustment and make appropriate corrections, if necessary.

Dated: March 4, 2008

Respectfully submitted,

By 
Cristin Howley Cowles, Ph.D.
